## **INDEPENDENT AUDITOR'S REPORT TO THE FUND MANAGER OF KAMCO PREMIER MARKET INDEX FUND, FUND MANAGER - KAMCO INVESTMENT COMPANY K.S.C (PUBLIC), KUWAIT**

### **Report on the Audit of the Financial Statements**

#### **Opinion**

We have audited the financial statements of KAMCO Premier Market Index Fund (the "Fund"), Fund Manager - KAMCO Investment Company K.S.C (Public), which comprise the statement of financial position as at 31 December 2025, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including material accounting policy information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at 31 December 2025, and its financial performance and its cash flows for the year then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board (IASB).

#### **Basis for Opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the International Ethics Standards Board of Accountants' *International Code of Ethics for Professional Accountants (including International Independence Standards)* (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Responsibilities of Fund Manager for the Financial Statements**

Fund Manager is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS Accounting Standards as issued by IASB, and for such internal control as the Fund Manager determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Fund Manager is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the unitholders either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Fund Manager is responsible for overseeing the Fund's financial reporting process.

#### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

## INDEPENDENT AUDITOR'S REPORT TO THE FUND MANAGER OF KAMCO PREMIER MARKET INDEX FUND, FUND MANAGER - KAMCO INVESTMENT COMPANY K.S.C (PUBLIC), KUWAIT (CONTINUED)

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.

Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Fund Manager.

- Conclude on the appropriateness of the Fund Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with Fund Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

### Report on Other Legal and Regulatory Requirements

Furthermore, in our opinion proper books of accounts have been kept by the Fund and the financial statements are in accordance therewith. We further report that we obtained all the information and explanations that we required for the purpose of our audit, and that the financial statements incorporate all information that is required by the Funds' Articles of Association, as amended, and that, to the best of our knowledge and belief, no violations of the Articles of Association, as amended, have occurred during the year ended 31 December 2025 that might have had a material effect on the business of the Fund or on its financial position.

We further report that, during the course of our audit, to the best of our knowledge and belief, we have not become aware of any material violations of the provisions of Law No. 7 of 2010, concerning the Capital Markets Authority and its related regulations, as amended, during the year ended 31 December 2025, that might have had a material effect on the business of the Fund or on its financial position.

**Notes to the Financial Statements – 31 December 2025**

---

**1. Incorporation and objectives**

KAMCO Premier Market Index Fund (the "Fund") is an open ended investment fund, incorporated on 14 August 2000. The Fund is regulated by Capital Market Authority (CMA) established under Law No. 7 of 2010.

The Fund Manager is KAMCO Investment Company K.S.C (Public) and the Fund Custodian and investment Controller is Kuwait International Trustee Company K.S.C.C.

During the year, the Fund Custodian and investment Controller is changed from Kuwait Clearing Company K.S.C.C to Kuwait International Trustee Company K.S.C.C and the same is approved by CMA on 23 October 2025 with an effective date of 03 November 2025.

The Fund Manager's Head office is located at Sharq, Al Shuhada'a Street in the State of Kuwait.

The term of the Fund was fifteen years from the date of incorporation. The term of the Fund was extended till August 2030 and has been approved by CMA.

The Fund has no employees.

The objective of the Fund is to achieve capital growth by investing in the shares of the companies listed on the premier market in Boursa Kuwait according to their market value and weightage in measurement Index.

The financial statements have been approved for issue by the Fund Manager and Fund Custodian and Investment controller on 09 February 2026 and are subject to the approval of the unitholders at their forthcoming Annual General Assembly Meeting.

**2. Basis of preparation and material accounting policies**

**2.1 Basis of preparation**

These financial statements have been prepared in conformity with IFRS Accounting Standards as issued by the International Accounting Standards Board (IASB) and interpretations issued by the International Financial Reporting Interpretations Committee (IFRIC), under the historical cost basis of measurement as modified for the revaluation at fair value of investments classified as "at fair value through profit or loss".

The preparation of financial statements in conformity with IFRS Accounting Standards as issued by IASB requires management to make estimates and assumptions that may affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. It also requires management to exercise its judgment in the process of applying the Fund's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in note 2.11.

The financial statements have been presented in Kuwaiti Dinars ("KD"), which is the functional currency of the Fund.

**Going concern**

The Fund Manager and Fund Custodian and Investment Controller have, at the time of approving the financial statements, a reasonable expectation that the Fund has adequate resources to continue in operational existence for the foreseeable future. Thus, they continue to adopt the going concern basis of accounting in preparing the financial statements.

**2.2 New and amended IFRS Accounting Standards that are effective for the current year**

Following standard, interpretation or amendment are effective from the current year and are adopted by the Fund but however these does not have any impact on the financial statements of the year unless otherwise stated below:

**Notes to the Financial Statements – 31 December 2025**

<b>Standard, interpretation, amendments</b>	<b>Description</b>
Amendments to IAS 21 The Effects of Changes in Foreign Exchange Rates titled Lack of Exchangeability	The amendments specify how to assess whether a currency is exchangeable, and how to determine the exchange rate when it is not.

**2.3 New and revised IFRS Accounting Standards in issue but not yet effective**

At the date of authorization of these financial statements, the Fund has not applied the following new and revised IFRS Accounting Standards that have been issued but are not yet effective:

<b>Standard, interpretation, amendments</b>	<b>Description</b>	<b>Effective date</b>
Amendment to IFRS 9 and IFRS 7 - Classification and Measurement of Financial Instruments	<p>These amendments:</p> <ul style="list-style-type: none"> <li>• permit an entity to deem a financial liability (or part of a financial liability) that is settled using an electronic payment system to be discharged (and derecognised) before the settlement date if specified criteria are met. If an entity elects to apply this accounting policy, it must do so for all settlements made through the same electronic payment system.</li> <li>• clarify and add further guidance for assessing whether a financial asset meets the solely payments of principal and interest (SPPI) criterion;</li> <li>• add new disclosures for certain instruments with contractual terms that could change the timing or amount of contractual cash flows on the occurrence (or non-occurrence) of a contingent event that does not relate directly to changes in a basic lending risks and costs. The requirements apply to each class of financial asset measured at amortised cost or FVTOCI and each class of financial liability measured at amortised cost; and</li> <li>• Investments in equity instruments designated at FVTOCI-require an entity to disclose the fair value gain or loss presented in other comprehensive income during the period, showing separately the fair value gain or loss that relates to investments derecognised in the period and the fair value gain or loss that relates to investments held at the end of the period.</li> </ul>	1 January 2026
IFRS 18 Presentation and Disclosures in Financial Statements	<p>IFRS 18 replaces IAS 1, carrying forward many of the requirements in IAS 1 unchanged and complementing them with new requirements. In addition, some IAS 1 paragraphs have been moved to IAS 8 and IFRS 7. Furthermore, the IASB has made minor amendments to IAS 7 and IAS 33 Earnings per Share.</p> <p>IFRS 18 introduces new requirements to:</p> <ul style="list-style-type: none"> <li>• present specified categories and defined subtotals in the statement of profit or loss.</li> </ul>	1 January 2027

**Notes to the Financial Statements – 31 December 2025**

---

<b>Standard, interpretation, amendments</b>	<b>Description</b>	<b>Effective date</b>
	<ul style="list-style-type: none"> <li>• provide disclosures on management-defined performance measures (MPMs) in the notes to the financial statements.</li> <li>• improve aggregation and disaggregation.</li> </ul> <p>The application of this standard may have an impact on the financial statements in future periods.</p>	
IFRS 19 Subsidiaries without Public Accountability: Disclosures	<p>IFRS 19 permits an eligible subsidiary to provide reduced disclosures when applying IFRS Accounting Standards in its financial statements. A subsidiary is eligible for the reduced disclosures if it does not have public accountability and its ultimate or any intermediate parent produces consolidated financial statements available for public use that comply with IFRS Accounting Standards. IFRS 19 is optional for subsidiaries that are eligible and sets out the disclosure requirements for subsidiaries that elect to apply it.</p> <p>An entity is only permitted to apply IFRS 19 if, at the end of the reporting period:</p> <ul style="list-style-type: none"> <li>• it is a subsidiary (this includes an intermediate parent)</li> <li>• it does not have public accountability, and</li> <li>• its ultimate or any intermediate parent produces consolidated financial statements available for public use that comply with IFRS Accounting Standards.</li> </ul>	1 January 2027
Annual Improvements to IFRS Accounting Standards – Volume 11	Limited to amendments that either clarify the wording of an IFRS standard or correct relatively minor unintended consequences, oversights or conflicts between requirements in the standards.	1 January 2027

Fund Manager anticipates that these new standards, interpretations and amendments will be adopted in the financial statements in the period of initial application and adoption of these new standards, interpretations and amendments will not have any material impact on the financial statements of the Fund in the period of initial application except as disclosed above.

## **2.4 Financial instruments**

### **Classification**

The Fund classifies its financial assets upon initial recognition into the following categories:

- Financial assets carried at amortised cost
- Financial assets carried at fair value through other comprehensive income (FVOCI)
- Financial assets carried at fair value through profit or loss (FVTPL)

To determine the Funds's classification and measurement category, all financial assets, except equity instruments, is assessed based on a combination of the entity's business model for managing the assets and the instruments' contractual cash flow characteristics.

**Notes to the Financial Statements – 31 December 2025**

---

*Business model assessment*

The Fund determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective.

The Fund's business model is not assessed on an instrument by instrument basis but at a higher level of aggregated portfolios and is based on a number of observable factors. The information considered includes:

- The stated policies and objectives for the portfolio and the operation of those policies in practice;
- The risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- The frequency, volume and timing of sales in prior periods, the reasons for such sales and its expectations about future sales activity.

The business model assessment is based on reasonably expected scenarios without taking 'worst case' or 'stress case' scenarios into account. If cash flows after initial recognition are realised in a way that is different from the Fund's original expectations, the Fund does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

*Assessment of whether contractual cash flows are solely payments of principal and interest (SPPI test)*

The Fund assesses the contractual terms of financial assets to identify whether they meet the SPPI test. 'Principal' for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of the financial asset. Interest is defined as consideration for time value of money and for the credit risk associated with the principal and for other basic lending risks and costs as well as a profit margin. In assessing whether the contractual cash flows are solely payments of principal and interest, the Fund considers whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition.

**Recognition and de-recognition**

A financial asset or a financial liability is recognised when the Fund becomes a party to the contractual provisions of the instrument.

A financial asset (in whole or in part) is derecognised when the contractual rights to receive cash flows from the financial asset has expired or the Fund has transferred substantially all risks and rewards of ownership and has not retained control. If the Fund has retained control, it continues to recognise the financial asset to the extent of its continuing involvement in the financial asset.

A financial liability is derecognized when the obligation under the liability is discharged, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and recognition of a new liability. If the modification is not substantial, the difference between: (1) the carrying amount of the liability before the modification; and (2) the present value of the cash flows after modification is recognised in the consolidated profit or loss as the modification gain or loss within other gains and losses.

All regular way purchase and sale of financial assets are recognised using settlement date accounting. Changes in fair value between the trade date and settlement date are recognised in the statement of profit or loss and other comprehensive income in accordance with the policy applicable to the related instrument. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulations or conventions in the market place.

**Notes to the Financial Statements – 31 December 2025**

---

**Measurement**

All financial assets or financial liabilities are initially measured at fair value including transaction costs that are directly attributable to the acquisition or issue.

*Financial assets carried at amortised cost:*

A financial asset is carried at amortised cost if it meets both of the following conditions:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise, on specified dates, to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets carried at amortised cost are subsequently measured at amortised cost using the effective interest method. Interest income, foreign exchange gains and losses and impairment are recognised in the statement of profit or loss and other comprehensive income. Any gain or loss on derecognition is recognised in the statement of profit or loss and other comprehensive income. Bank balance and other receivables in the nature of financial assets is classified as financial assets carried at amortised cost.

*Financial assets carried at fair value through other comprehensive income:*

Upon initial recognition, the Fund may elect to classify irrevocably some of its equity investments as equity instruments at FVOCI when they meet the definition of equity under IAS 32 Financial Instruments: Presentation and are not held for trading. Such classification is determined on an instrument-by-instrument basis. Equity instruments at FVOCI are subsequently measured at fair value. Gains and losses on these equity instruments are never recycled to statement of profit or loss.

Dividends are recognised in statement of profit or loss, when the right of the payment has been established, except when the Fund benefits from such proceeds as a recovery of part of the cost of the instrument, in which case, such gains are recorded in statement of profit or loss and other comprehensive income. Equity instruments at FVOCI are not subject to an impairment assessment. Upon disposal, cumulative gains or losses are reclassified from fair value reserve to retained earnings in the statement of changes in equity.

*Financial assets carried at fair value through profit or loss:*

Financial assets in this category are those assets which have been either designated by management upon initial recognition or are mandatorily required to be measured at fair value under IFRS 9. Management designates an instrument at FVTPL that otherwise meet the requirements to be measured at amortised cost or at FVOCI only if it eliminates, or significantly reduces, an accounting mismatch that would otherwise arise. Financial assets with contractual cash flows not representing solely payment of principal and interest are mandatorily required to be measured at FVTPL.

Financial assets at FVTPL are subsequently measured at fair value. Changes in fair value are recognised in the statement of profit or loss and other comprehensive income. Dividend income from equity investments measured at FVTPL is recognised in the statement of profit or loss and other comprehensive income when the right to the payment has been established.

**Reclassification of financial assets**

The Fund does not reclassify its financial assets subsequent to their initial recognition unless there is a change in business model.

### **Impairment of financial assets**

The Fund applies 'Expected Credit Loss' (ECL) model under IFRS 9 for bank balances and other receivables in the nature of financial assets measured at amortised cost using the general approach. The measurement of ECL reflects an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes; the time value of money and reasonable and supportive information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

#### *General approach*

The Fund applies three stage approach to measure ECL as follows:

#### *Stage 1: 12-month ECL*

The Fund measures loss allowances at an amount equal to 12-month ECL on financial assets where there has not been significant increase in credit risk since their initial recognition or on exposures that are determined to have a low credit risk at the reporting date. The Fund considers a financial asset to have low credit risk when its credit rating is equivalent to the globally understood definition of 'investment grade'.

#### *Stage 2: Lifetime ECL – not credit impaired*

The Fund measures loss allowances at an amount equal to lifetime ECL on financial assets where there has been a significant increase in credit risk since initial recognition but are not credit impaired.

#### *Stage 3: Lifetime ECL – credit impaired*

The Fund measures loss allowances at an amount equal to lifetime ECL on financial assets that are determined to be credit impaired based on objective evidence of impairment.

Life time ECL is ECL that result from all possible default events over the expected life of a financial instrument. The 12 month ECL is the portion of life time expected credit loss that result from default events that are possible within the 12 months after the reporting date. Both life time ECLs and 12 month ECLs are calculated on either an individual basis or a collective basis depending on the nature of the underlying portfolio of financial instruments.

At each reporting date, the Fund assesses whether a financial asset or group of financial assets is credit impaired. The Fund considers a financial asset to be credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred or when contractual payments are 90 days past due.

### **Significant increase in credit risk**

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Fund compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Fund considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

The Fund regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

The Fund assumes that the credit risk on a financial instrument has not increased significantly since initial recognition if the financial instrument is determined to have low credit risk at the reporting date. A financial instrument is determined to have low credit risk if:

- (1) The financial instrument has a low risk of default,

**Notes to the Financial Statements – 31 December 2025**

---

- (2) The borrower has a strong capacity to meet its contractual cash flow obligations in the near term, and
- (3) Adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations.

**Definition of default and write-off policy**

The Fund categorize receivables as default when the amount is >90 days past due or there is evidence indicating the asset is credit-impaired. The amount is written off when there is evidence indicating that the debtor is in severe financial difficulty and the Fund has no realistic prospect of recovery.

**Measurement of ECLs**

ECLs are probability weighted estimates of credit losses and are measured as the present value of all cash shortfalls discounted at the effective interest rate of the financial instrument. Cash shortfall represent the difference between cash flows due to the Fund in accordance with the contract and the cash flows that the Fund expects to receive. The key elements in the measurement of ECL include probability of default (PD), loss given default (LGD) and exposure at default (EAD). The Fund estimates these elements using appropriate credit risk models taking into consideration the internal and external credit ratings of the assets, nature and value of collaterals, forward looking macro-economic scenarios etc.

***Presentation of allowance for ECL in the statement of financial position***

Loss allowances for ECL are presented as a deduction from the gross carrying amount of the financial assets for financial assets carried at amortised cost.

**Financial liabilities and equity**

**Classification as debt or equity**

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

**Equity instruments**

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Fund are recognised at the proceeds received, net of direct issue costs.

***Financial liabilities***

All financial liabilities are classified as measured at amortized cost. Financial liabilities at amortized cost are initially measured at fair value and subsequently measured at amortized cost using the effective interest method.

**2.5 Fair value measurements**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to by the Fund.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

**Notes to the Financial Statements – 31 December 2025**

---

The Fund uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable;
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For financial instruments quoted in an active market, fair value is determined by reference to quoted market prices. Closing prices are used for assets and offer prices are used for liabilities. The fair value of investments in mutual funds, unit trusts or similar investment vehicles are based on the last published net assets value.

For financial instruments carried at amortised cost, the fair value is estimated by discounting future cash flows at the current market rate of return for similar financial instruments.

The fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Fund determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Fund has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

**2.6 Cash and cash equivalents**

Demand and term deposits with banks whose original maturities do not exceed three months from the date of placement are classified as cash and cash equivalents in the statement of cash flows.

**2.7 Redeemable units**

The Fund issues redeemable units, which are redeemable at the holder's option and are classified as equity. The redeemable units can be put back to the Fund at any time for cash equal to a proportionate share of the Fund's net asset value.

If the redeemable units' terms or conditions change such that they do not comply with the strict criteria contained in the amendment, the redeemable units would be reclassified to a financial liability from the date the instrument ceases to meet the criteria. The financial liability would be measured at the instrument's fair value at the date of reclassification. Any difference between the carrying value of the equity instrument and fair value of the liability on the date of reclassification would be recognised in equity.

The units are issued and redeemed at the holders' option at prices based on the Fund's net assets value per unit at the time of issue or redemption. The Fund's net asset value per unit is calculated by dividing the total equity with the total number of outstanding redeemable units.

**Notes to the Financial Statements – 31 December 2025**

---

**2.8 Revenue recognition**

Gains and losses on sale of investments represent the difference between the selling price and the investment's carrying value. Realized gains or losses are recognized in the statement of profit or loss and other comprehensive income.

Dividend income is recognized when the right to receive payment is established.

Interest income is recognized using the effective yield method.

**2.9 Distributions payable to unit holders**

Dividend distribution to the Fund's unit holders is recognized as a liability in the Fund's financial statements in the period in which dividends are approved by the regulatory authority.

**2.10 Foreign currencies**

Fund's functional currency is the Kuwaiti Dinars. Foreign currency transactions are recorded in Kuwaiti Dinars at the exchange rates prevailing at the trade date of the transactions. Monetary assets and liabilities in foreign currencies at year end are converted into Kuwaiti Dinars at the exchange rates prevailing at the statement of financial position date. Resultant gains or losses are taken to the statement of profit or loss and other comprehensive income.

**2.11 Significant accounting judgments and estimates**

The preparation of financial statements in conformity with IFRS Accounting Standards as issued by IASB requires management to make estimates and assumptions that may affect amounts reported in these financial statements, as actual results could differ from those estimates. It also requires management to exercise its judgment in the process of applying the Fund's accounting policies. Judgments and estimates that are significant to these financial statements are shown below:

**Classification of financial assets**

The Fund determines the classification of financial assets based on the assessment of the business model within which the assets are held and assessment of whether the contractual terms of the financial asset are SPPI on the principal amount outstanding. Refer note 2.4 classification of financial assets for more information.

**Contingent liabilities/liabilities**

Contingent liabilities are potential liabilities that arise from past events whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity. Provisions for liabilities are recorded when a loss is considered probable and can be reasonably estimated. The determination of whether or not a provision should be recorded for any potential liabilities is based on management's judgment.

Any changes in these estimates and assumptions as well as the use of different, but equally reasonable estimates and assumptions may have an impact on the carrying value of the above assets.

**3. Bank balances**

Bank balances represent balances with a local commercial bank

**Notes to the Financial Statements – 31 December 2025**

**4. Investments at fair value through profit or loss**

Investments at fair value through profit or loss represent shares listed on Bursa Kuwait. The following are the sectorial classification of these investments.

	Kuwaiti Dinars	
	2025	2024
Banks	67,582,578	54,569,453
Telecommunication	6,343,935	5,545,710
Financial services	5,831,687	4,296,194
Industrial	4,574,457	4,222,197
Real estate	5,299,571	3,730,545
Consumer goods	3,060,924	1,945,495
Basic material	680,470	727,501
Energy	568,013	321,353
	<b>93,941,635</b>	<b>75,358,448</b>

**5. Other assets**

	Kuwaiti Dinars	
	2025	2024
Receivable from broker	348,292	7,156
Prepaid expenses	5,516	2,169
	<b>353,808</b>	<b>9,325</b>

**6. Other payables**

	Kuwaiti Dinars	
	2025	2024
Accrued management fees	75,226	58,704
Accrued custodian and investment controller fees	31,757	25,286
Dividend payable	2,106	2,106
Subscription received in advance	2,000	-
Others fees and charges	1,595	1,395
	<b>112,684</b>	<b>87,491</b>

**7. Share capital**

The Fund is an open ended fund with fund capital varying from 2,000,000 to 100,000,000 units (2024: 2,000,000 to 100,000,000 units) with nominal value of KD 1 per unit (2024: KD 1 per unit). These units are issued and redeemed at the unit holders' option at prices based on the value of the Fund's net assets at the time of issue/redemption which is done on a weekly basis.

The movement analysis of redeemable units is as below:

	Number of units	
	2025	2024
<b>Balance at beginning of year</b>	31,288,253	31,401,041
Subscriptions during the year	97,241	21,737
Redemptions during the year	(101,606)	(134,525)
<b>Balance at end of year</b>	<b>31,283,888</b>	<b>31,288,253</b>

**Equalization reserve**

Shortfalls/surpluses of par value on subscriptions/redemptions are taken to the equalization reserve.

**Notes to the Financial Statements – 31 December 2025**

**8. Net asset value per redeemable unit**

	<b>2025</b>	<b>2024</b>
Net assets value (KD)	94,662,399	75,740,427
Number of redeemable units (Units)	31,283,888	31,288,253
<b>Net asset value per redeemable unit (KD)</b>	<b>3.026</b>	<b>2.421</b>

**9. Related party transactions**

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions.

The Fund Manager is paid an annual fee of 0.3% (2024: 0.3%) of the Fund's net asset value calculated weekly and paid quarterly.

Transactions with Fund Manager are disclosed in the statement of profit or loss and other comprehensive income and related accrual is disclosed in note 6.

The Fund Manager is required to hold a minimum of KD 250,000 of the issued units subject to a maximum of 75%. The Fund manager holds 151,425 units amounting to KD 458,199 representing 0.484% of outstanding units (2024: 151,425 units amounting to KD 366,599 representing 0.484% of outstanding units).

**10. Fund Custodian and Investment Controller fees**

The Fund Custodian and Investment Controller is paid an annual fee of 0.15% of the Fund's net asset value for the first KD 15 million and at 0.125% for any amount exceeding KD 15 million, calculated weekly and paid on a quarterly basis. Transactions with the Fund Custodian and Investment Controller are disclosed in the statement of profit or loss and other comprehensive income and related accrual is disclosed in note 6.

**11. Other operating expenses**

	Kuwaiti Dinars	
	<b>2025</b>	<b>2024</b>
Safe keeping charges	1,410	1,527
Audit fees	4,000	3,500
Other expenses	19,424	28,757
	<b>24,834</b>	<b>33,784</b>

**12. Fair value of financial instruments**

Some of the Fund's financial assets are measured at fair value at the end of each reporting period.

Investments at fair value through profit or loss as disclosed in note 4 are traded in active markets and are classified as level 1 category.

There were no transfers between level 1, 2 and 3 during the year.

For financial instruments carried at amortized cost, fair values are not materially different from their carrying values and is used only for disclosure purpose. Fair value of such financial instruments are classified under level 3 determined based on discounted cash flow basis, with most significant inputs being the discount rate that reflects the credit risk of counterparties.

**13. Financial risk management**

The Fund's use of financial instruments exposes it to a variety of financial risks such as market risk, credit risk and liquidity risk. The Fund maintains positions in a variety of financial instruments based on the Fund Manager's investment management strategy, which is primarily driven by the Fund's investment objective as described in note 1.

**Notes to the Financial Statements – 31 December 2025**

Asset allocation is determined by the Fund Manager who manages the distribution of the assets to achieve those objectives. Risk management is carried out by the Fund Manager in accordance with the policies and procedures in place.

The significant risks that the Fund is exposed to are discussed below:

**Market risk**

Market risk is the risk that an enterprise may incur financial losses due to adverse movements in market price of investments or interest and foreign currency rates. According to the Fund’s Articles of Association the Fund is required to adopt a balanced investment policy through a careful selection of securities and other financial instruments within specified limits that aims to reduce market risk. The Fund’s overall market positions are monitored on a daily basis by the Fund Manager.

*(a) Equity price risk*

Equity price risk is the risk that value of the instrument will fluctuate as a result of changes in equity market prices, whether caused by factors specific to an individual investment, issuer or all factors affecting all instruments traded in the market. The Fund is exposed to equity price risk because majority of the Fund’s financial assets are quoted equity investments held and classified in the statement of financial position as at fair value through profit or loss and therefore all changes in market conditions will directly affect statement of profit or loss and comprehensive income.

The Fund Manager moderates this risk through a careful selection of securities with specified sectorial limits within a market. Details of investments at fair value through profit or loss and sectorial classification of listed equity investments at the statement of financial position date are disclosed in note 4.

The Fund’s equity investments are listed on the local stock exchange. A 5% increase/(decrease) in equity indices, with all other variables held constant, would have increased/(decreased) the net profit (2024: increased/(decreased) the net profit) for the year by KD 5,392,086 (2024: KD 3,417,241).

*(b) Interest rate risk*

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

A 5% increase/decrease in interest rate, with all other variables held constant, are immaterial to the financial statements as of 31 December 2025 and 2024.

*Currency risk*

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Fund does not hold assets denominated in currencies other than the Kuwaiti Dinar, the functional currency. Therefore, the Fund is not exposed to currency risk.

**Credit risk**

Credit risk is the risk that counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The carrying amounts of financial assets best represent the maximum credit risk exposure at the statement of financial position date.

At the reporting date, the Fund’s financial assets exposed to credit risk amounted to the following:

	Kuwaiti Dinars	
	2025	2024
Bank balances	479,640	460,145
Other assets	348,292	7,156
	<u>827,932</u>	<u>467,301</u>

**Notes to the Financial Statements – 31 December 2025**

---

The Fund minimizes credit risk by placing funds with financial institutions of high credit rating and transacting principal business with counter parties of repute.

All bank balances are assessed to have low credit risk at each reporting date as they are held with reputable banking institutions of investment grade rating.

ECL on bank balances and other assets in the nature of financial assets are immaterial as of 31 December 2025 and 2024.

**Liquidity risk**

Liquidity risk is the risk that an enterprise will encounter difficulty in raising funds to meet commitments associated with financial instruments. The Fund's liabilities mature within a period less than three months. The Fund's constitution also provides for weekly redemption and is therefore exposed to liquidity risk of meeting unit holders' redemptions at any time.

The Fund Manager's policy to manage liquidity risk is as follows:

1. Investing majority of its assets in investments that are traded in an active market and can be readily disposed of.
2. To have liquid assets equal to anticipated redemptions.
3. The Fund's redemption policy only allows for redemptions on every Thursday and unitholders must provide three days' notice.
4. The Fund may also arrange for short term finance of up to ten percent (10%) of the Fund's net assets value to meet maturing commitments or for redemption of units.

As at the reporting date 99.12% (2024: 99.38%) of the total assets of the fund are traded in an active market. The remaining assets have a contractual maturity of less than 3 months. All the assets and liabilities are short term in nature.

**14. Capital risk management**

The Fund defines capital as the total equity as shown in the statement of financial position. The amount of net asset attributable to holders of redeemable units can change significantly as the Fund is subject to periodical subscriptions and redemptions at the discretion of unit holders. The Fund's objective when managing capital is to safeguard the Fund's ability to continue as a going concern in order to provide returns for unit holders and to maintain a strong capital base to support the development of investment activities of the Fund.

In order to maintain or adjust the capital structure, the Fund's policy is to perform the following:

- Monitor the level of weekly subscriptions and redemptions relative to assets it expects to be able to liquidate within three months and adjust the amount of distributions the Fund pays to redeemable unit holders.
- Redeem and issue new units in accordance with the constitutional documents of the Fund, which include the ability to restrict redemptions and require certain minimum holdings and subscriptions.

The Fund Manager monitors capital on the basis of the value of net assets attributable to redeemable unit holders.

During the year, the Fund has fully complied with all its externally imposed capital requirements.

**15. Segment information**

The Fund is organised into one main business segment, which is investing in the shares of companies listed on the Boursa Kuwait. The Fund maintains all its assets and liabilities inside Kuwait. This segment is based on reports reviewed by the Fund Manager.

**16. Taxation**

The Fund is not subject to taxation.
