KAMCO Ratings

KAMCO investment research is based on the analysis of regional and country economics, industries and company fundamentals. KAMCO company research reflects a long-term (12-month) target price for a company or stock. The ratings bands are:

- * **Outperform:** Target Price represents expected returns $\geq 10\%$ in the next 12 months
- * **Neutral:** Target Price represents expected returns between -10% and $+10\%$ in the next 12 months
- * **Underperform:** Target Price represents an expected return of $<-10\%$ in the next 12 months

In certain circumstances, ratings may differ from those implied by a fair value target using the criteria above. KAMCO policy is to maintain up-to-date fair value targets on the companies under its coverage, reflecting any material changes to the analyst's outlook on a company. Share price volatility may cause a stock to move outside the rating range implied by KAMCO's fair value target. Analysts may not necessarily change their ratings if this happens, but are expected to disclose the rationale behind their view to KAMCO clients.
